WanderWay
Every mile has a story.

Every mile has a story.

A new way to explore your own backyard.

> *"WanderWay was born from a simple idea: we wanted a way to discover the interesting places we normally drive right past without knowing they're there. Now, your next road trip or Sunday afternoon drive can be an adventure."*
>
> ***— Derek Boyer, Creator***

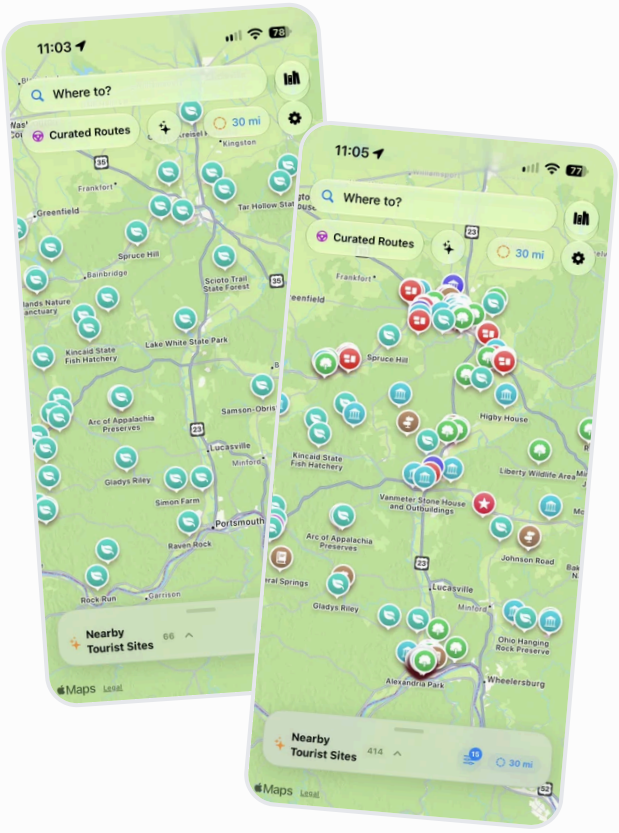

✓ Discover Overlooked Sights

Find historic sites, covered bridges, state parks, museums, and scenic overlooks along your route. Explore famous local landmarks, as well as lesser-known hidden gems and forgotten ruins you never knew existed right in your own backyard.

✓ Complete Trip Planning & Exploration

Set a custom search radius up to 40 miles and filter by 16 unique categories (including prehistoric earthworks). Add stops directly to your route, read deep historical background stories, and view live detour time estimates natively.

✓ The Sunday Drive Generator

Tell the app how much time you have (from 30 minutes up to 5 hours), and it instantly builds a custom scenic loop that guides you past fascinating roadside discoveries and brings you right back home—perfect for a relaxed weekend afternoon.

✓ Native iOS & CarPlay Experience

Built exclusively for iPhone with spoken turn-by-turn directions and full Apple CarPlay support. It's safe, intuitive, and seamlessly integrated into your car's dashboard so you can keep your eyes on the road.

✓ Privacy First

A simple one-time purchase with absolutely zero ads, zero subscriptions, and no personal data tracking. Just pure exploration without the digital clutter.
